Vegetation Continuous Fields

- Moderate level of funding.
- Sufficient to maintain work on VCF
  - Insufficient to support VCC
- For VCF moving to 250m.
  - Working to improve training data using automated Landsat analysis.
  - Fully automated VCF product generation in next 3 years.
- Intend to use VCF time series for change detection (SDSU).
- Still looking for funding opportunities for global water mask.
- No current funding for VCF using NPP.
- MEASURES proposal for global forest cover change at Landsat resolutions involves significant use of MODIS products.
